2022-23 ACADEMIC PROGRAMS

2022-2023 FOUNDATIONS OF INFORMATION SYSTEMS (CTFIS)

Description

The Foundations of Information Systems certificate provides a conceptual framework for those students wishing to become a professional in computer information systems or computer programming. The student will be introduced to computer science programming logic, as well as developing algorithms to solve programming problems. In addition, students will acquire an understanding of the impact of information systems and information technology on the business, industrial, and other environments in which they will work as programmers or analysts.

Continuing Eligibility

Students must maintain a minimum GPA of 2.0 or better.
