

2022-23 ACADEMIC COURSES

ABR 113: ESTIMATING AND SHOP OPERATIONS

In this course, students develop skills in repair estimation associated with collision damaged vehicles. Skills acquired will include hand written estimation along with the use of software specifically developed for the auto body repair industry. Damage assessment, parts compilation, calculation of repair cost, and refinishing information are some of the subjects to be covered. Additionally, students will examine the nature of the body shop management team and the factors that contribute to the success and profitability of an effective, efficient operation. The title of this course was previously Applied Body Welding and Estimation.

Level I Prereq: Academic Reading and Writing Levels of 6; Academic Math Level 2; ABR 111 and ABR 112
