## 2024-25 ACADEMIC COURSES

### ABR 209: ADVANCED METAL SHAPING

---

In this course, students will work individually and as a team to complete projects made from various types of metal. Areas of study will include: sheet metal shaping with hand and power tools over wooden "bucks," and layout of multi-piece projects through the use of cardboard templates, then transferred to metal. Procedures used in this class will consist of riveting, bell flanging, welding, English wheel and many others.

**Level I Prereq:** Academic Reading and Writing Levels of 6; ABR 119 minimum grade "B-"
