

2024-25 ACADEMIC COURSES

ATT 114: APPLIED TRANSPORTATION WELDING

In this course, students will develop and apply basic welding and metal inert gas (MIG) brazing skills associated with crash damaged panel replacement as related to the collision repair industry. Areas of study will include proper equipment selection and set up, fitment of panels to be welded, and plasma cutting procedures. Emphasis will be placed on producing Inter-Industry Conference on Auto Collision Repair (I-CAR) acceptable MIG welding of steel and aluminum butt, lap, and plug welds completed in various welding positions. Students will also be introduced to MIG brazing using various grades of steel. This course was previously ABR 114. Level I Prerequisite: Academic Reading and Writing Levels of 6

Level I Prereq: Academic Reading and Writing Levels of 6

Description	Hours
Credits	2
Lecture Hours	30
Clinical Hours	0
Lab Hours	22.5
Other Hours	0
Total Hours	52.5
