

2024-25 ACADEMIC COURSES

ATT 119: INTRODUCTION TO METAL SHAPING

In this course, students will be introduced to the working of sheet metals by hand. In addition to skillful handling of tools, students must possess a thorough knowledge of the properties and behavior of materials, to ensure they move in the desired direction when worked. Areas of study will include sheet metal shaping using hand tools over wood forms, anvils, and sand/shot bags. Students will create several handmade parts using a variety of sheet metal materials with varied thickness and hardness. This course was previously ABR 119. Level I Prerequisite: Academic Reading and Writing Levels of 6

Level I Prereq: Academic Reading and Writing Levels of 6

Description	Hours
Credits	2
