

2024-25 ACADEMIC COURSES

ATT 201: LIGHTWEIGHTING COMPOSITE REPAIR

In this course, students learn about composite materials and their uses in modern vehicles. Students are introduced to material types (such as resins with reinforcing carbon fiber) and their construction uses, specialty equipment, and the importance of vacuum bagging. Additionally, students will develop and execute project plans to build composite parts such as a composite laminate and a 3D laminate utilizing a core material. This course was previously ABR 201. Level I Prerequisite: Academic Reading and Writing Levels of 6; ATT 111 or ATT 131, minimum grade "C"

Level I Prereq: Academic Reading and Writing Levels of 6; ATT 111 or ATT 131, minimum grade "C"

Description	Hours
Credits	4
Lecture Hours	45
Clinical Hours	0
Lab Hours	60
Other Hours	0
Total Hours	105
