

# 2024-25 ACADEMIC COURSES

## ATT 266: ADVANCED TRANSMISSIONS

In this course, students will learn how to inspect, diagnose, and repair late-model automotive drivetrain systems. Students will learn how to diagnose and repair manual and automatic transmissions/transaxles, transfer cases, and differentials/axles. Upon successful completion, students will be able to conduct advanced in-vehicle diagnosis on all components of the drivetrain system, and repair as necessary. The drivetrain components will focus on advancing technologies and tooling representative of manufacturer trends. This course was previously ASV 266. Level I Prerequisite: Academic Reading and Writing Levels of 6; ATT 134 minimum grade "C"

**Level I Prereq:** Academic Reading and Writing Levels of 6; ATT 134 minimum grade "C"

Description	Hours
Credits	2
Lecture Hours	30
Clinical Hours	0
Lab Hours	22.5
Other Hours	0
Total Hours	52.5
