

2021-22 ACADEMIC COURSES

CPS 276 : WEB PROG/APACHE,MYSQL,PHP

In this course, students will build dynamic database-driven Web applications using PHP and MySQL. Application output will be displayed in a browser. Students will be working on a Linux VM server with root privileges. In addition, students will be introduced to some basic HTML and limited CSS. Students who have not taken the prerequisite courses, but have equivalent programming experience in any language, should request an override from the instructor or department chair. HTML knowledge is helpful. The title of this course was previously Web Programming Using Apache, MySQL, and PHP.

Level I Prereq: Academic Reading and Writing Levels of 6; CPS 161, CPS 171 or WEB 210, minimum grade "C"

Description	Hours
