
2023-24 ACADEMIC COURSES

CSS 225: CCNA CYBER OPS

In this course, students are introduced to Cybersecurity Operations. Students will develop the knowledge and skills needed to work as a Security Analyst with a Security Operations Center team. Security skills needed for monitoring, detecting, investigating, analyzing and responding to security events, thus protecting systems and organizations from cybersecurity risks, threats and vulnerabilities will be discussed. This course helps prepare students to take the Cisco Certified Network Associate (CCNA) exam.

Level I Prereq: Academic Reading and Writing Levels of 6; Academic Math Level 1; CSS 200 minimum grade "C"

Description	Hours
