
2022-23 ACADEMIC COURSES

CSS 285: ESSENTIALS OF AUTOMOTIVE PENETRATION TESTING

In this course, students will gain an understanding of the automotive cybersecurity threat-landscape. Automotive attack surfaces will be highlighted, with a focus on attack techniques to provide insight into creating secure automotive systems. Students will complete hands-on exercises including reverse engineering in a lab environment. Emphasis will be placed on offensive methodologies with a follow-up on defensive strategies.

Level I Prereq: Academic Reading and Writing Levels of 6; ASV 131 and CST 185, minimum grade "C"

Description	Hours
