
2023-24 ACADEMIC COURSES

CST 165 : COMPUTER TECHNOLOGY II

Through hands-on experiences, this course builds on the student's knowledge of personal computer installation, configuration, upgrading, and troubleshooting, with an emphasis on servers in the data center. Students learn both fundamental and advanced techniques in working with the Windows operating system. Students apply their understanding of the operating system's functions and structure, and employ common diagnostic utilities and tools, to identify steps to correct system problems. This course contains content previously taught in CST 155.

Level I Prereq: Academic Reading and Writing Levels of 6; CST 160 minimum grade "C", may enroll concurrently

Description	Hours
Credits	4
