

2024-25 ACADEMIC COURSES

PSY 200 : CHILD PSYCHOLOGY

In this course, students will be introduced to the psychology of human development and behavior from conception to adolescence. Topics of study will include the psychological processes involved in physical, cognitive and social personality development. Major theories of human development are reviewed and contrasted. The course is constructed and taught to be of value to those entering the fields of social work, elementary or secondary education, or nursing and various allied health fields. Level I Prerequisite: Academic Reading and Writing Levels of 6

Level I Prereq: Academic Reading and Writing Levels of 6
