

2023-24 ACADEMIC COURSES

RAD 111: FUNDAMENTALS OF RADIOGRAPHY

This course is designed to prepare students to operate radiographic equipment in the clinical setting. Students will acquire the knowledge and skills needed when they operate basic fixed and mobile x-ray equipment and accessory devices that are used to produce quality diagnostic radiographic images. This course will include laboratory sessions which will integrate the theories of image production with the practical application of equipment operation using phantoms.

Level I Prereq: Academic Reading and Writing Levels of 6; Admission to Radiography program

Description	Hours
Credits	2
Lecture Hours	15
