
2023-24 ACADEMIC COURSES

UAT 253 : COPPER PIPING SYSTEMS

In this course, students will review the proper methods of various copper joining techniques used in the pipe trades. Hands-on demonstration of various copper pipe joining methods including soldering and brazing as well as current mechanical techniques will be practiced. In addition, students will review installation-related field failure, troubleshooting, and prevention. Students taking this course will be able to implement these techniques at their local Training Center. The title of this course was previously Copper Piping Systems. Limited to United Association program participants.

Level I Prereq: Academic Reading and Writing Levels of 6
