
2021-22 ACADEMIC COURSES

UAT 270 : PROPERTIES OF METALS

In this course, students will learn methods of teaching the properties and characteristics of metals commonly used in the pipe trades. Emphasis will be given to explaining the nature of ferrous and non-ferrous metals in both their raw and manufactured form, the physical and mechanical properties of common metals and the processes used to create desired changes. The title of this course was previously Properties of Metals. Limited to United Association program participants.

Level I Prereq: Academic Reading and Writing Levels of 6
