
2024-25 ACADEMIC COURSES

WEB 210 : WEB DEVELOPMENT II

In this course, students learn advanced front-end coding and also are introduced to JavaScript and the DOM. The topics covered include media queries for responsive design, accessible web development using ARIA, CSS pre-processors, and front-end frameworks. Students will write valid, semantically accurate and accessible HTML5 code and will learn the basics of unobtrusive JavaScript. Level I Prerequisite: Academic Reading and Writing Levels of 6; WEB 110 minimum grade "C"

Level I Prereq: Academic Reading and Writing Levels of 6; WEB 110 minimum grade "C"
