

2024-25 ACADEMIC PROGRAMS

INFORMATION SYSTEMS: PROGRAMMING IN C++ (ASISPC)

Associate in Science

This associate degree program prepares students to transfer to complete a bachelor's degree in Computer Science or a in Business Administration with a major in Computer Information Systems (CIS). Undergraduates and graduates of CIS programs are prepared to:

- create and maintain information systems for organizations,
- manage information systems projects, and
- develop strategies for effective use of enterprise information resources.

Student who complete this program may choose to transfer to many four year colleges and universities including Davenport University, Eastern Michigan University, and the University of Michigan.

This is a **high demand, high skill** and **high wage** program as defined by the [Michigan Community College Network](#).
