MATH AND SCIENCE (ASMSAS)

Associate in Science

This program prepares students to transfer to a four-year college or university to complete a bachelor's degree in actuarial science, biology, chemistry, math, or pharmacy. The program will give students a solid foundation in math and science. Students should obtain program requirements and transfer equivalencies from the college to which they are transferring.

Complete the requirements for one of the following concentrations. These concentrations may also list courses used to meet General Education requirements.

This is a **high demand, high skill** and **high wage** program as defined by the [Michigan Community College Network](#).
