

2024-25 ACADEMIC PROGRAMS

PHOTOGRAPHY: TRADITIONAL IMAGING (CTPHOR)

Certificate

This certificate program prepares students to enter the ever-evolving field of photography by providing a strong foundation of technical and aesthetic skills. Areas of study include:

- basic camera operation and composition skills,
- film and digital exposure and processing methods,
- studio lighting, and
- printing and presentation techniques.

Graduating students produce professional portfolios and self-promotional materials to find employment in a variety of areas such as photographic assisting, photojournalism, fine art, freelance, portrait, and wedding photography. Students also complete the program to use photography as a means of personal expression, and as preparation for transferring to a 4-year college or university.

Description

This certificate consists of courses that emphasize the tools, techniques, and workflows of the traditional B&W, film-based lab area. Study begins with digital camera operations and image-editing software, and then pivots to emphasize pathways of traditional photographic image construction methods.
