

2024-25 ACADEMIC PROGRAMS

TECHNICAL COMMUNICATION (CTTC)

Certificate

As a fast-track program for career changers or a foundational program for first time professionals, this program provides the knowledge and skills necessary for writing end-user documentation such as printed manuals, online help systems and screencast training modules.

Using tools of the technical communication profession, you'll develop skills in audience analysis; tutorial, procedure and reference guide writing; project management; document design; and usability testing.

Designed to provide you with practical and theoretical principles of technical communication, you'll be prepared for employment in a wide variety of opportunities in the field. As part of this program, you'll learn how to conduct a formal job search and create professional portfolios to better compete for jobs. This certificate can also be used to seek work as interns and in co-op positions while pursuing the Associate in Arts Degree in Technical Communication.

This is a **high demand, high skill** and **high wage** program as defined by the [Michigan Community College Network](#).
